Adding Task Vector

Comparison

Classes Name	Pre-Trained Model	Fine-tuned Model	Another Similar model	After Adding TASK Vector
3	970	987	883	897
5	874	871	931	937
7	838	930	674	693

Future Work

Better Fine-tuning to Enhanced the performance of Task Vector

We can use this technique for LLM
